NATURE SPARES

The Stricken Rose From Grief.

Within the last few years there has been on the whole a rise in wages and a real advance in confort on the part of the work people in Gorinan industries; this improvement in the condition of the masses has been mainly the outcome of the growth and development of the progress of trades mionism. The growth of isbor organizations in this country was for a long time rather slow; they were considered illegal associations and their objects were declared as being unlawful until in 1868-69 the law forbidding coalition was abolished.

The modern trades union may be said
